*"Be the change that you want to see in the world."*

## Summary

---

Highly motivated, self-starting developer seeking to launch a career building web applications and services with a variety of technologies Committed to continuous learning and improvement.

From the moment i produced "Hello World" in the console of my first application, I knew i was hooked into the world of software development. But software development has never been "just a job" for me. it's offered an engaging challenge to continually learn and improve my skills in creating high-quality software. What started with a simple "Hello World" has become a full-fledged passion that only gets more exciting as the years go by.

Below, you'll find projects I've completed that showcase my skills and background in developing websites.

## Skills

---

HTML5 · CSS3 · SCSS · RESTAPI

Programming -> Javascript · Typescript · Python · Nodejs

Technologies -> Django · Flask · React · NextJs · Expressjs · Redux

ORMS -> Prisma · sqlalchemy · DjangoORM

Database -> PostgresQl · Mongodb

VersionControl -> Git

## Experience & Showcase

---

### Online Food Delivery Service

I BUILD FULLY FUNCTIONAL FOOD DELIVERY SERVICE WEB APP THAT HAVE THE DELIVERER, RESTAURANT OWNER AND CUSTOMER DASHBOARD.

- From Server Side i use Django, DjangoRestFramework(DRF), Postgresql, Redis ...
- From Client Side I use Nextjs, Redux, ReduxQuery ...

### Ecommerce Website

I BUILD FULLY FUNCTIONAL ECOMMERCE WEBSITE WITH HIGHLY-CUSTIMAIZABLE

- From Server Side i use Django, DjangoRestFramework(DRF), Postgresql, Redis ...
- From Client Side I use Nextjs, Redux, Axios ...

### Blog Website

I BUILD A FULLY FUNCTIONAL BLOG WEBSITE USING MERN STACK.

- The blog website is focus on programming communities to share their thoughts and make QA's with peers
- with this webapp i use new and popular technologies like Mongodb, Prisma, Nextjs, Express and Authjs for authentication.
